

Creating an eReadings List from eLR

eLR (e-Learning Resources) provides for the flexible storage, search, discovery and retrieval of all file and document types as learning objects.

Introduction

Teachers can now create electronic reading lists that can then be linked inside their eLearn course, or made available to students via URL link. This function is completely optional.

During Contribution

Teachers are now asked, at the bottom of the screen.

Would you like to add this item to a reading list?

Click 'Yes' if you want this item to appear on a reading list. **NOTE: this flag is defaulted to 'No'**

Yes

By leaving it blank, the object **will not** appear on any reading list.

If the box is clicked to say 'Yes', then another TAB appears requesting information to ensure the object appears on the right reading list.

Discipline *
Choose a discipline from controlled list

No terms selected

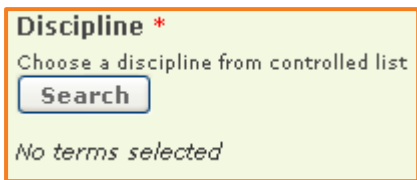

Programme *
Choose programme from controlled list

No terms selected

Attachment Type *
Prescribed material through to useful material

Priority in eReading List *
Choose 1 for highest priority, 9 for lowest. Any with same number will appear alphabetically

1. Discipline is a list of terms defined by the CIT Learning Centre. Please choose one or more terms that meets your reading list topic. You must choose at least one.

Please contact your liaison librarian if no discipline terms meet your reading list topic.

http://cit.edu.au/current/cit_learning_centre/centre_liaison_program

2. Programmes have been split into simple categories.

- Year 10
- Year 12
- Certificate programmes, this includes all certificate levels in a programme. Certificate 1 to Certificate IV, will be listed as ‘Certificates in ...’, for example Certificates in Mental Health
- Diploma programmes, this includes all diploma and advanced diploma. For example Diplomas of Communication and New Media
- Bachelor programmes, for example Bachelor of Photography.

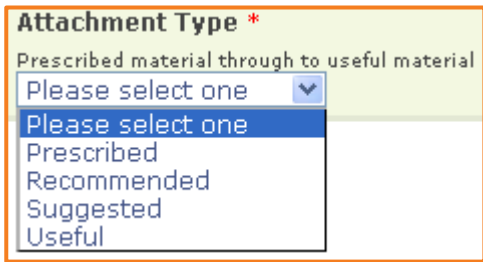

Please choose one or more terms that meets your reading list topic. You must choose at least one.

Please contact eLRSupport@cit.edu.au for suggestions for this programme area.

3. Attachment Type.

Please choose one of the following

- Prescribed: objects you believe are essential for the student to view/read.
- Recommended: objects you highly recommend students view/read.
- Suggested: objects you believe are good for the student to view/read.
- Useful: objects you believe are relevant, but not essential for students to view/read.

Please contact eLRSupport@cit.edu.au for suggestions for this attachment type area.

4. Priority in eReading List allows you to order objects within the attachment type area. Small reading lists probably do not require ordering within prescribed etc, just choose one.

Larger reading lists can be further split, so higher priority objects can be numbered one and grouped together alphabetically, and more objects placed lower in the priority list.

Priority in eReading List *
Choose 1 for highest priority, 9 for lowest. Any with same number will appear alphabetically

Please select one

Please select one

- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9

Please contact eLRSupport@cit.edu.au for suggestions for this priority in reading list area.

5. Save your contribution as per normal process.

The reading list is created immediately and can be viewed via <http://ereadinglist.cit.edu.au/>

Note

Please contact your liaison librarian if you would like existing eLR objects added into an eReading list.
