

Voice Podcaster

This is a complete, start-to-finish podcasting application. It allows the teacher and students to author vocal recordings and distribute them over the Internet using syndication feeds. Users can play messages directly within Voice podcaster, download audio, or subscribe using their preferred RSS feeder.

To add a Voice Podcaster:

1. **Turn editing on.**
2. Scroll to area that you want to add the Voice Podcaster to.
3. Click on the arrow next to **Add an activity** and select **Voice Podcaster**.
4. Fill in the required information. You can link it to another Voice Podcaster or create a new podcaster.
5. Once completed click **Create and Return to course**.
6. Click on the Voice Podcaster you have created and you are ready to create a new podcast
