

Locating a resource in eLR

In your eLearn course

Make sure **editing is turned on**.

In a block in eLearn, Select **Add a resource**, and then **Add an eLR resource**.

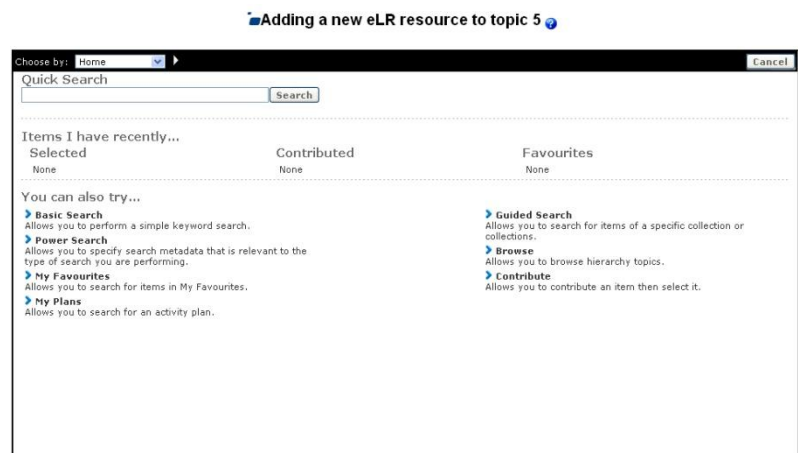

eLR Screen

This is the main eLR screen; it supports a number of actions such as **Search**, **Browse** or **Contribute**.

The resources already contributed to eLR have come from:

- the migration from WebCT;
- teachers from your own Centre;
- Australian Flexible Learning Framework's LORN or Toolbox Learning Object Repository;
- Flex:Ed; and
- the Learning Centre.

Choose Search or Browse. Locate a suitable learning resource.

You can also try...

- ▶ **Basic Search**
Allows you to perform a simple keyword search.
- ▶ **Power Search**
Allows you to specify search metadata that is relevant to the type of search you are performing.
- ▶ **My Favourites**
Allows you to search for items in My Favourites.

- ▶ **Guided Search**
Allows you to search for items of a specific collection or collections.
- ▶ **Browse**
Allows you to browse hierarchy topics.
- ▶ **Contribute**
Allows you to contribute an item then select it.

View and add the resource to your eLearn course

Click on the item you would like to view.

View the item to confirm is it what you want by clicking on it. If you have a Word document, it will have the Word icon next to it, a PowerPoint will have the PowerPoint icon etc.

Now tick the box next to the file you would like to add to your course. This will again be the one with the name of the file and the Program icon. Unless you want the summary screen of the file, not just the file, DO NOT chose the top part of the file. This will link your students to the information NOT the actual file.

And then click **Select / Update Checked Resources**

Add the resource without viewing first

If you are confident the resource is the one you want, click on the item(s) checkbox and then click on the **Select checked items** button.

<input type="checkbox"/>	 eLearn, guidelines, FlexEd, online Title: eLearn Course Release Process Subject-Course No: Not applicable Centre: Education Excellence	Version: 1 Status: live
